

MEDIHELP INTERNATIONAL HEALTH CHECK UP INFORMATION

Dear Partner,

Please be informed that the **internal medicine-type check-up(health screening) tests** in the list below **can be used** in the future **according to the following conditions**.

It is **possible to request guarantee of payment for any available health screening** (health check-up) **plans** from our **contracted medical providers**. Irrespective of the contents and price of the package, MediHelp **can covers the tests up to the limit and examinations specified in the General Terms and Conditions**. Please find available tests listed below.

Please be informed that for **any medical cost that exceeds the limit of 162 500 HUF**, the pre authorization of the Insurer is always necessary, regardless of whether it is a contracted medical partner or a non contracted medical provider, even in the case of screening tests

The above conditions apply to all insured persons with a contract.

The following may be considered as part of the screening test:

- blood test (complete blood count, erythrocyte sedimentation rate, creatinine, blood glucose, blood cholesterol (LDL, HDL), triglyceride, GOT, GGT, GPT, TSH, FT3, FT4, HbA1c, C-reactive protein)
- complete urinalysis + sediment; ECG (12-lead resting ECG and/or exercise ECG)
- chest x.ray; pelvic and abdominal ultrasound
- dermatological examination (naevus screening)
- complex breast examination (mammography and breast ultrasound) for women over 40 years of age,
- breast ultrasound examination between the ages of 35-39 years;
- gynaecological examination (with cytology)
- urological examination
- PSA test for gents at the age of 40 and above
- bone mineral density test (ODM) for insured persons over 50 years of age
- fecal immuno-blood test at the age of 50 and above
- cardiological examination with cardiac ultrasound from the age of 40
- standard ophthalmic examination
